

For All The World To See

I'm a small part
Of Your big story

And I'm so glad
You're a big God

Cause now I know
You're my Father

And I'm alive because
Of Your love

So everybody sing

We're gonna dance,
Dance, dance

And scream out loud

Let the joy inside
Your heart come out

Let your light shine
Bright for all to see

Shine, Shine, Shine
For all the world to see

I'm a small part
Of Your big story

And I'm so glad
You're a big God

Cause now I know
You're my Father

And I'm alive because
Of Your love

So everybody sing

We're gonna dance,

Dance, dance

And scream out loud

Let the joy inside
Your heart come out

Let your light shine
Bright for all to see

Shine, Shine, Shine
For all the world to see

I can't hold it in
I've got to let it out

I'm gonna shine this light
Shine it all around

I can't hold it in
I've got to let it out

I'm gonna shine this light
Shine it all around

So everybody sing

We're gonna dance,
Dance, dance

And scream out loud

Let the joy inside
Your heart come out

Let your light shine
Bright for all to see

Shine, Shine, Shine

Shine, Shine, Shine
For all the world to see
