

You Only

Those who live up in the heavens
And those who live down in the deepest place on earth
Will hear your name, will know your fame
All creation will look up and see you

CHORUS:

You, only You, can lead us to
Your awesome majesty where we
We will be worshipping You only- it's You only

We have heard you in the fire
And we have followed you across the ocean floor
That's how it goes: the story grows
Two thousand years and still you're speaking

CHORUS

You only- it's You only
You only- it's You only

You came to free them, they condemned you
Nailed you up and tried to tear your glory down
But to their shame, Sunday came
They realized that even death can't hold you

CHORUS

You only- it's You only
You only- it's You only
It's You only
