

Your Word

This world would have me believe
It knows what I need to see
But there's no light to be found
In a world where I see only darkness all around me

Your Word will shine a light on my path
To guide my way through this world
Your Word will be a lamp to my feet
To guide my way through this world

(Repeat all)

Your Word will shine a light on my path
Your Word will be a lamp to my feet
Your Word will shine a light on my path
Your Word will be a lamp to my feet

Your Word will shine a light on my path
To guide my way through this world
Your Word will be a lamp to my feet
To guide my way through this world (Repeat)

Through this world

Through this world
